Exclusive distributor of Calexium products for

Cyprus & Greece

**Stay ahead of the competition by adding value and credentials to your business.**

Nowadays, integrating communications and information technologies is essential if you want to keep on top of both costs and the competition. A company's image is also reflected in its e-mail addresses.

**E-mail addresses are too often overlooked**

and they can make you and your business look unprofessional.

**MailFountain®** manages your business's domain name and all the e-mail addresses for you and your colleagues. Your brand and your business will appear stronger to prospective customers as a result of having e-mail addresses directly associated with the name of your web site.

**Productivity and reactivity**

**Communication** - The mail server allows you to send and receive e-mails under your company name.

**Mobility** - Wherever you are, you can stay in touch with your business.

**Independence** - No subscription, you are completely in control of your communications system.

**Prospecting and loyalty**

**Mailing** - Manage your e-mail marketing campaigns yourself.

**Loyalty** - Sustain client loyalty by keeping in touch with all your customer at the click of a button.

**Newsletter** - Send out regular newsletters to all your mailing list.

**Peace of mind**

**Protection** - MailFountain protects you against unwanted e-mails.

**Safety** - The Anubis Technology employed by MailFountain guarantees you a high level of safety and reliability.

**Share your internet connection**

**Web sharing** - All your colleagues can securely access the internet and all your company data via MailFountain.

**High Bandwidth** - Genuine router capabilities, MailFountain can share a connection up to 100 Mbps.

**Availability**

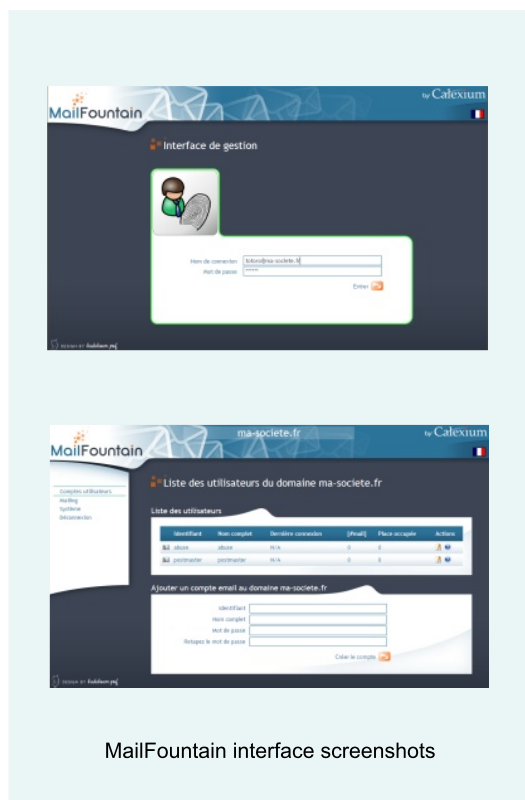

**24 Hours a day** - MailFountain is available all day, every day.

**Compatibility** - MailFountain is compatible with all working environments and connects directly into the existing ethernet modem provided by your ISP.

**High capacity**

**Large files** - With his high capacity of 40 giga bytes for your mailboxes, MailFountain allow you to send and receive very large email, such as drawing, DTP layout, photos, videos, music and so forth.
